American Journal of Physiology: Endocrinology and Metabolism

No. 1. JANUARY 1996

INVITED REVIEW

Control of fertility by metabolic cues
G. N. Wade, J. E. Schneider, and H.-Y. Li E1

Pancreatic sympathetic nerves contribute to increased glucagon secretion during severe hypoglycemia in dogs
P. J. Havel, T. O. Mundinger, and G. J. Taborsky, Jr. E20

Ouabain increases aldosterone release from bovine adrenal glomerulosa cells: role of renin-angiotensin system
M. Tamura, D. W. Piston, M. Tani, M. Naruse, E. J. Landon, and T. Inagami E27

Effects of morning cortisol elevation on insulin secretion and glucose regulation in humans
L. Plat, M. M. Byrne, J. Sturis, K. S. Polonsky, J. Mockel, F. Féry, and E. Van Cauter E36

Altered expression of eukaryotic initiation factor 2B in skeletal muscle during sepsis
L. Voisin, K. Gray, K. M. Flowers, S. R. Kimball, L. S. Jefferson, and T. C. Vary E43

Cortical bone growth and maturational changes in dwarf rats induced by recombinant human growth hormone
D. A. Martinez, M. W. Orth, K. E. Carr, R. Vanderby, Jr., and A. C. Vailas E51

IGF-I stimulation of muscle protein synthesis in the awake rat: permissive role of insulin and amino acids
R. Jacob, X. Hu, D. Niederstock, S. Hasan, P. H. McNulty, R. S. Sherwin, and L. H. Young E60

Infusion of labeled KIC is more accurate than labeled leucine to determine human muscle protein synthesis
D. Chinkes, S. Klein, X.-J. Zhang, and R. R. Wolfe E67

Visceral adiposity, increased adipocyte lipolysis, and metabolic dysfunction in obese postmenopausal women
B. J. Nicklas, E. M. Rogus, E. G. Colman, and A. P. Goldberg E72

Protein turnover during puberty in normal children
S. A. Arslanian and S. C. Kalhan E79

Gut proteolysis contributes essential amino acids during exercise
B. D. Williams, R. R. Wolfe, D. P. Bracy, and D. H. Wasserman E85

Interleukin-1 receptor antagonist inhibits endotoxin fever and systemic interleukin-6 induction in the rat
G. Luheshi, A. J. Miller, S. Brouwer, M. J. Dascombe, N. J. Rothwell, and S. J. Hopkins E91

Mechanism of verapamil calcium channel blockade-induced hyperprolactinemia
S. R. Kelley, T. J. Kamal, and M. E. Molitch E96

Ammonia uptake in inactive muscles during exercise in humans
J. Bangsbo, B. Kiens, and E. A. Richter E101

Females secrete growth hormone with more process irregularity than males in both humans and rats
S. M. Pincus, E. F. Gevers, I. C. A. F. Robinson, G. Van Den Berg, F. Roelfsema, M. L. Hartman, and J. D. Veldhuis E107

Regulation of muscle glycogen phosphorylase activity during intense aerobic cycling with elevated FFA
D. J. Dyck, S. J. Peters, P. S. Wendling, A. Chesley, E. Hultman, and L. L. Spriet E116

Alterations of adenylyl cyclase-linked G proteins in rat liver during aging
A. T. Eakes, T. K. Hymer, M. J. Rosenthal, J. Moss, and M. S. Katz E126

NIDDM is associated with loss of pancreatic β-cell L-type Ca^{2+} channel activity
M. W. Roe, J. F. Worley III, Y. Tokuyama, L. H. Philipson, J. Sturis, J. Tang, I. D. Dukes, G. I. Bell, and K. S. Polonsky E133

Comparison of 22-oxacalcitriol and $1,25(OH)_2D_3$ on bone metabolism in young X-linked hypophosphatemic male mice
L. R. Halstead, R. S. Weinstein, S.-L. Cheng, L. Rifas, and L. V. Avioli E141

Effects of dietary protein restriction on regional amino acid metabolism in insulin-dependent diabetes mellitus
I. G. Brodsky and J. T. Devlin E148

Parathyroid hormone mRNA levels are increased by progestins and vary during rat estrous cycle
E. Epstein, J. Silver, G. Almogi, N. Livni, and T. Naveh-Many E158

MODELING IN PHYSIOLOGY

Precision of DLW energy expenditure measurements: contribution of natural abundance variations
P. Ritz, T. J. Cole, C. Couet, and W. A. Coward E164

A model to measure insulin effects on glucose transport and phosphorylation in muscle: a three-tracer study
M. P. Saccomani, R. C. Bonadonna, D. M. Bier, R. A. DeFronzo, and C. Cobelli E170

RAPID COMMUNICATIONS

Contribution of net hepatic glycogenolysis to glucose production during the early postprandial period
K. F. Petersen, T. Price, G. W. Cline, D. L. Rothman, and G. I. Shulman E186

Upregulation of adipocyte metabolism by agouti protein: possible paracrine actions in yellow mouse obesity
B. H. Jones, J. H. Kim, M. B. Zemel, R. P. Woychik, E. J. Michaud, W. O. Wilkison, and N. Moustaïd E192

Exercise-induced increase in glucose transport, GLUT-4, and VAMP-2 in plasma membrane from human muscle
S. Kristiansen, M. Hargreaves, and E. A. Richter E197

No. 2. FEBRUARY 1996

Oxytocin-mediated recruitment of slowly cycling cross bridges and isometric force in rat myometrium
A. L. Ruzycky and B. T. Ameredes E203

Plasma methionine and cysteine kinetics in response to an intravenous glutathione infusion in adult humans
N. K. Fukagawa, A. M. Ajami, and V. R. Young E209

Alterations of lipolysis and lipoprotein lipase in chronically nicotine-treated rats
C. Sztalryd, J. Hamilton, B. A. Horwitz, P. Johnson, and F. B. Kraemer E215

Polyadenylated RNA, actin mRNA, and myosin heavy chain mRNA in young and old human skeletal muscle
S. Welle, K. Bhatt, and C. Thornton E224

Effects of systemic GHRH on sleep in intact and hypophysectomized rats
F. Obál, Jr., R. Floyd, L. Kapás, B. Bodosi, and J. M. Krueger E230

Age-related changes in the diurnal rhythm of CRH gene expression in the paraventricular nuclei
A. Cai and P. M. Wise E238

Multiple forms of 6-phosphofructo-2-kinase/fructose-2,6-bisphosphatase are expressed in perinatal rat liver
M. Casado, L. Boscá, and P. Martín-Sanz E244

Effects of prolonged glucose infusion on insulin secretion, clearance, and action in normal subjects
G. Boden, J. Ruiz, C.-J. Kim, and X. Chen E251

Effects of epinephrine on regional free fatty acid and energy metabolism in men and women
M. D. Jensen, P. E. Cryer, C. M. Johnson, and M. J. Murray E259

Progressive effect of endurance training on metabolic adaptations in working skeletal muscle
S. M. Phillips, H. J. Green, M. A. Tarnopolsky, G. J. F. Heigenhauser, and S. M. Grant E265

Insulin and hyperaminoacidemia regulate by a different mechanism leucine turnover and oxidation in obesity
L. Luzi, P. Castellino, and R. A. DeFronzo E273

Influences of dietary energy and protein on leucine kinetics during feeding in healthy adults
N. R. Gibson, A. Fereday, M. Cox, D. Halliday, P. J. Pacy, and D. J. Millward E282

Consequences of high dietary fructose in the islet-transplanted rat with suboptimal β-cell mass
R. C. Bell, E. A. Ryan, and D. T. Finegood E292

Inactivation of acetyl-CoA carboxylase and activation of AMP-activated protein kinase in muscle during exercise
W. W. Winder and D. G. Hardie E299

Metabolic changes in rats during a continuous infusion of recombinant interleukin-1
P. R. Ling, J. H. Schwartz, M. Jeevanandam, J. Gauldie, and B. R. Bistrian E305

Augmented insulin action on rates of protein synthesis after resistance exercise in rats
J. D. Fluckey, T. C. Vary, L. S. Jefferson, and P. A. Farrell E313

Do genetic factors explain associations between muscle strength, lean mass, and bone density? A twin study
E. Seeman, J. L. Hopper, N. R. Young, C. Formica, P. Goss, and C. Tsalamandris E320

Regulation of muscle glycogen phosphorylase activity following short-term endurance training
A. Chesley, G. J. F. Heigenhauser, and L. L. Spriet E328

Postmarathon paradox: insulin resistance in the face of glycogen depletion
J. A. Tuominen, P. Ebeling, R. Bourey, L. Koranyi, A. Lamminen, J. Rapola, T. Sane, H. Vuorinen-Markkola, and V. A. Koivisto E336

Improvement of glucose and lipid metabolism in diabetic rats treated with molybdate
A. T. Özcelikay, D. J. Becker, L. N. Ongemba, A.-M. Pottier, J.-C. Henquin, and S. M. Brichard E344

Effects of fish oil on metabolic responses to oral fructose and glucose loads in healthy humans
J. Delarue, C. Couet, R. Cohen, J.-F. Bréchot, J.-M. Antoine, and F. Lamisse E353

Gender differences in muscle sympathetic nerve activity: effect of body fat distribution
P. P. Jones, S. Snitker, J. S. Skinner, and E. Ravussin E363

κ-Opioid agonist inhibition of osmotically induced AVP release: preferential action at hypothalamic sites
N. F. Rossi and D. P. Brooks E367

LETTERS TO THE EDITOR

Lack of appropriate citation
A. Funakoshi, A. Kono, and K. Miyasaka E373

No. 3. MARCH 1996

INVITED REVIEW

Diverse signaling pathways in the cellular actions of insulin
A. R. Saltiel E375

Chronic ouabain infusion does not cause hypertension in sheep
G. B. Pidgeon, A. M. Richards, M. G. Nicholls, C. J. Charles, M. T. Rademaker, K. L. Lynn, R. R. Bailey, L. K. Lewis, and T. G. Yandle E386

Forearm vasodilator mechanisms during mental stress: possible roles of epinephrine and ANP
M. Lindqvist, T. Kahan, A. Melcher, P. Bie, and P. Hjemdahl E393

Metabolic responses of canine gracilis muscle during contraction with partial ischemia
J. A. Timmons, S. M. Poucher, D. Constantin-Teodosiu, V. Worrall, I. A. Macdonald, and P. L. Greenhaff E400

Androgens contribute to the stimulation of cancellous bone formation by ovarian hormones in female rats
A. C. Gallagher, T. J. Chambers, and J. H. Tobias E407

Enteral glutamate is almost completely metabolized in first pass by the gastrointestinal tract of infant pigs
P. J. Reeds, D. G. Burrin, F. Jahoor, L. Wykes, J. Henry, and E. M. Frazer E413

Increased bone formation in rat tibiae after a single short period of dynamic loading in vivo
M. R. Forwood, I. Owan, Y. Takano, and C. H. Turner E419

Differential effects of acute hypertriglyceridemia on insulin action and insulin receptor autophosphorylation
B. Gumbiner, J. F. Mucha, J. E. Lindstrom, I. Rekhi, and J. N. Livingston E424

IL-1 receptor antagonist attenuates sepsis-induced alterations in the IGF system and protein synthesis
C. H. Lang, J. Fan, R. Cooney, and T. C. Vary E430

Cocaine and exercise: temporal changes in plasma levels of catecholamines, lactate, glucose, and cocaine
D. H. Han, K. P. Kelly, G. W. Fellingham, and R. K. Conlee E438

Metabolic fate of an oral long-chain triglyceride load in humans
C. Binnert, C. Pachiaudi, M. Beylot, M. Croset, R. Cohen, J. P. Riou, and M. Laville E445

Leucine and glucose kinetics during growth hormone treatment in intrauterine growth-retarded preterm infants
L. van Toledo-Eppinga, M. C. Houdijk, H. A. Delemarre-Van de Waal, C. Jakobs, and H. N. Lafeber E451

Increments in skeletal muscle GLUT-1 and GLUT-4 after endurance training in humans
S. M. Phillips, X.-X. Han, H. J. Green, and A. Bonen E456

Interaction of carbohydrate and fat fuels in human skeletal muscle: impact of obesity and NIDDM
L. J. Mandarino, A. Consoli, A. Jain, and D. E. Kelley E463

Interaction between nitric oxide and prostaglandin E_2 pathways in pregnant rat uteri
Y.-L. Dong and C. Yallampalli E471

Effect of chronic hypoxia on myometrial responsiveness in the pregnant rat
J. W. Rhee, L. D. Longo, W. J. Pearce, N. H. Bae, G. J. Valenzuela, and C. A. Ducsay E477

Effect of aging on the metabolism of phosphorus and 1,25-dihydroxyvitamin D in healthy men
A. A. Portale, B. P. Halloran, R. C. Morris, Jr., and E. T. Lonergan E483

Placental transport and fetal utilization of leucine in a model of fetal growth retardation
J. C. Ross, P. V. Fennessey, R. B. Wilkening, F. C. Battaglia, and G. Meschia E491

Preservation of insulin secretory responses to P_2 purinoceptor agonists in Zucker diabetic fatty rats
J. Tang, W. Pugh, K. S. Polonsky, and H. Zhang E504

Neuroendocrine and cardiovascular effects of serotonin: selective role of brain angiotensin on vasopressin
J. A. Saydoff, P. A. Rittenhouse, M. Carnes, J. Armstrong, L. D. Van de Kar, and M. S. Brownfield E513

MODELING IN PHYSIOLOGY

Integrated mathematical model to assess β-cell activity during the oral glucose test
K. Thomaseth, A. Kautzky-Willer, B. Ludvik, R. Prager, and G. Pacini E522

The hot but not the cold minimal model allows precise assessment of insulin sensitivity in NIDDM subjects
A. Avogaro, P. Vicini, A. Valerio, A. Caumo, and C. Cobelli E532

RAPID COMMUNICATION

Human skeletal muscle malonyl-CoA at rest and during prolonged submaximal exercise
L. M. Odland, G. J. F. Heigenhauser, G. D. Lopaschuk, and L. L. Spriet E541

No. 4. APRIL 1996

IGF-I alters skeletal muscle substrate metabolism and blunts recovery from insulin-induced hypoglycemia
M. A. Hussain, O. Schmitz, J. S. Christiansen, N. J. Christensen, K. G. M. M. Alberti, and E. R. Froesch E545

Effects of growth hormone and IGF-I on glucocorticoid-induced protein catabolism in humans
M. Oehri, R. Ninnis, J. Girard, F. J. Frey, and U. Keller E552

Altered regulation of hepatic glucose output in the male offspring of protein-malnourished rat dams
S. E. Ozanne, G. D. Smith, J. Tikerpae, and C. N. Hales E559

Hyperglycemia and impaired glucose tolerance in IGF binding protein-1 transgenic mice
K. Rajkumar, S. T. Dheen, and L. J. Murphy E565

Elevated plasma glucose 2 h postchallenge predicts defects in β-cell function
M. M. Byrne, J. Sturis, R. J. Sobel, and K. S. Polonsky E572

Hyperglucagonemia and hepatic glucose metabolism during infection in the conscious dog
O. P. McGuinness, D. B. Lacy, and K. Eliasson E580

Effects of restricted daily feeding on neuropeptide Y release in the rat paraventricular nucleus
T. Yoshihara, S. Honma, and K. Honma E589

Prefeeding release of paraventricular neuropeptide Y is mediated by ascending noradrenergic neurons in rats
T. Yoshihara, S. Honma, and K. Honma E596

Progesterone binding to mineralocorticoid receptors: in vitro and in vivo studies
K. Myles and J. W. Funder E601

Internal dissociation of the circadian markers of the cortisol rhythm in night workers
L. Weibel, K. Spiegel, M. Follenius, J. Ehrhart, and G. Brandenberger E608

Role of insulin and IGF-I in activation of muscle protein synthesis after oral feeding
E. Svanberg, H. Zachrisson, C. Ohlsson, B.-M. Iresjö, and K. G. Lundholm E614

Prevention of skeletal muscle catabolism in sepsis does not impair visceral protein metabolism
R. N. Cooney, E. Owens, D. Slaymaker, and T. C. Vary E621

Prolonged bed rest decreases skeletal muscle and whole body protein synthesis
A. A. Ferrando, H. W. Lane, C. A. Stuart, J. Davis-Street, and R. R. Wolfe E627

Nitric oxide inhibitor L-NAME suppresses mechanically induced bone formation in rats
C. H. Turner, Y. Takano, I. Owan, and G. A. C. Murrell E634

Glycogen: a carbohydrate source for GLUT-1 glycosylation during glucose deprivation of 3T3-L1 adipocytes
R. J. McMahon and S. C. Frost E640

Developmental differences in the IGF-I system response to severe and chronic calorie malnutrition
M. H. Oster, N. Levin, P. J. Fielder, I. C. A. F. Robinson, R. C. Baxter, and M. J. Cronin E646

Downregulation of the PTH/PTHrP receptor by vitamin D_3 in the osteoblast-like ROS 17/2.8 cells
L. Y. Xie, A. Leung, G. V. Segre, I. Yamamoto, and A. B. Abou-Samra E654

Chronic desensitization of the glucose-dependent insulinotropic polypeptide receptor in diabetic rats
C.-C. Tseng, M. O. Boylan, L. A. Jarboe, T. B. Usdin, and M. M. Wolfe E661

A new procedure for the isolation of plasma membranes, T tubules, and internal membranes from skeletal muscle
L. Dombrowski, D. Roy, B. Marcotte, and A. Marette E667

Hypothalamic monoaminergic activity in obese Zucker rats in response to acute and chronic dietary stimuli
S. E. Specter, J. S. Stern, and B. A. Horwitz E677

Norepinephrine and serotonin vasoconstriction in rat hindlimb control different vascular flow routes
J. M. B. Newman, K. A. Dora, S. Rattigan, S. J. Edwards, E. Q. Colquhoun, and M. G. Clark E689

Perinatal energy stores and excessive fat deposition in genetically obese (*fa/fa*) rats
B. Meierfrankenfeld, M. Abelenda, H. Jauker, M. Klingenspor, E. E. Kershaw, S. C. Chua, Jr., R. L. Leibel, and I. Schmidt E700

Glucose production, recycling, and gluconeogenesis in normals and diabetics: a mass isotopomer [U-^{13}C]glucose study
J. A. Tayek and J. Katz E709

Periprandial systemic and regional lipase activity in normal humans
S. W. Coppack, T. J. Yost, R. M. Fisher, R. H. Eckel, and J. M. Miles E718

MODELING IN PHYSIOLOGY

Applications of segmented regression models for biomedical studies
N. G. Berman, W. K. Wong, S. Bhasin, and E. Ipp E723

RAPID COMMUNICATION

Glucose and insulin-induced inhibition of fatty acid oxidation: the glucose-fatty acid cycle reversed
L. S. Sidossis and R. R. Wolfe E733

No. 5. MAY 1996

Effect of weight loss on whole body and cellular lipid metabolism in severely obese humans
S. Klein, K. Luu, S. Gasic, and A. Green E739

Changes in cerebral blood flow and carbohydrate metabolism during acute hyperketonemia
S. G. Hasselbalch, P. L. Madsen, L. P. Hageman, K. S. Olsen, N. Justesen, S. Holm, and O. B. Paulson E746

Mechanisms of postabsorptive hyperglycemia in streptozotocin diabetic rats
J. K. Wi, J. K. Kim, and J. H. Youn E752

An isotopic method for measurement of muscle protein fractional breakdown rate in vivo
X.-J. Zhang, D. L. Chinkes, Y. Sakurai, and R. R. Wolfe E759

Reduction of dietary obesity in aP2-*Ucp* transgenic mice: physiology and adipose tissue distribution
J. Kopecký, Z. Hodný, M. Rossmeisl, I. Syrový, and L. P. Kozak E768

Reduction of dietary obesity in aP2-*Ucp* transgenic mice: mechanism and adipose tissue morphology
J. Kopecký, M. Rossmeisl, Z. Hodný, I. Syrový, M. Horáková, and P. Kolářová E776

Neural input modulates osmotically stimulated release of vasopressin into the supraoptic nucleus
M. Ludwig, M. F. Callahan, R. Landgraf, A. K. Johnson, and M. Morris E787

Long-term $GABA_A$ receptor activation increases $[Ca^{2+}]_i$ in single lactotrophs
A. Lorsignol, A. Taupignon, and B. Dufy E793

Protein synthesis in skeletal muscle and jejunum is more responsive to feeding in 7- than in 26-day-old pigs
T. A. Davis, D. G. Burrin, M. L. Fiorotto, and H. V. Nguyen E802

Differential regulation of renal glomerular and preglomerular vascular angiotensin II receptors
F. Amiri and R. Garcia E810

60-Hz magnetic field exposure effects on the melatonin rhythm and photoperiod control of reproduction
S. M. Yellon E816

Role of fat-derived substrates in the regulation of gluconeogenesis during fasting
F. Féry, L. Plat, C. Melot, and E. O. Balasse E822

Properties of AT_{1a} and AT_{1b} angiotensin receptors expressed in adrenocortical Y-1 cells
Y. Tian, A. J. Baukal, K. Sandberg, K. E. Bernstein, T. Balla, and K. J. Catt E831

Effect of nitric oxide synthase inhibitors on bone metabolism in growing rats
H. Tsukahara, M. Miura, S. Tsuchida, I. Hata, K. Hata, K. Yamamoto, Y. Ishii, I. Muramatsu, and M. Sudo E840

Glucose metabolism and insulin release in mouse βHC9 cells, as model for wild-type pancreatic β-cells
Y. Liang, G. Bai, N. Doliba, C. Buettger, L. Wang, D. K. Berner, and F. M. Matschinsky E846

Insulin resistance of skeletal muscle produced by hepatic parasympathetic interruption
H. Xie and W. W. Lautt E858

TNF directly stimulates glucose uptake and leucine oxidation and inhibits FFA flux in conscious dogs
Y. Sakurai, X.-J. Zhang, and R. R. Wolfe E864

Physiological concentrations of insulin and T_3 stimulate 3T3-L1 adipocyte acyl-CoA synthetase gene transcription
M. S. Kansara, A. K. Mehra, J. Von Hagen, E. Kabotyansky, and P. J. Smith E873

Noninvasive probing of citric acid cycle intermediates in primate liver with phenylacetylglutamine
D. Yang, S. F. Previs, C. A. Fernandez, S. Dugelay, M. V. Soloviev, J. W. Hazey, K. C. Agarwal, W. C. Levine, F. David, P. Rinaldo, M. Beylot, and H. Brunengraber E882

Glucose tolerance and insulin action in healthy centenarians
G. Paolisso, A. Gambardella, S. Ammendola, A. D'Amore, V. Balbi, M. Varricchio, and F. D'Onofrio E890

Paracrine stimulation of preadipocyte-enriched cell cultures by mature adipocytes
R. V. Considine, M. R. Nyce, L. M. Morales, S. A. Magosin, M. K. Sinha, T. L. Bauer, E. L. Rosato, J. Colberg, and J. F. Caro E895

Substrate and inhibitor specificity of the cloned human 11β-hydroxysteroid dehydrogenase type 2 isoform
P. Ferrari, R. E. Smith, J. W. Funder, and Z. S. Krozowski E900

Physical fitness, muscle morphology, and insulin-stimulated limb blood flow in normal subjects
T. Utriainen, A. Holmäng, P. Björntorp, S. Mäkimattila, A. Sovijärvi, H. Lindholm, and H. Yki-Järvinen E905

Glutamine interferes with glucocorticoid-induced expression of glutamine synthetase in skeletal muscle
R. C. Hickson, L. E. Wegrzyn, D. F. Osborne, and I. E. Karl E912

No. 6. JUNE 1996

INVITED REVIEW

Physiological characterization of the hypertensive transgenic rat TGR(mREN2)27
M. A. Lee, M. Böhm, M. Paul, M. Bader, U. Ganten, and D. Ganten E919

Age-related changes in body composition are associated with hepatic insulin resistance in conscious rats
N. Barzilai and L. Rossetti E930

Osteocytic expression of mRNA for c-*fos* and IGF-I: an immediate early gene response to an osteogenic stimulus
J. M. Lean, A. G. Mackay, J. W. M. Chow, and T. J. Chambers E937

Impact of early growth retardation on glucoregulatory control and insulin action in mature rats
M. J. Holness E946

Nitric oxide is an early mediator of the increase in bone formation by mechanical stimulation
S. W. Fox, T. J. Chambers, and J. W. M. Chow E955

Acute effect of epinephrine on muscle proteolysis in perfused rat hindquarters
M. Kadowaki, T. Kamata, and T. Noguchi E961

Acid-base homeostasis parallels anabolism in surgically stressed rats treated with GH and IGF-I
S. J. Evans, H.-C. Lo, D. M. Ney, and T. C. Welbourne E968

Somatostatin infusion suppresses GH secretory burst frequency and mass in normal men
E. Calabresi, E. Ishikawa, L. Bartolini, G. Delitala, G. Fanciulli, O. Oliva, J. D. Veldhuis, and M. Serio E975

Precursor pool for hepatic protein synthesis in humans: effects of tracer route infusion and dietary proteins
M. Cayol, Y. Boirie, J. Prugnaud, P. Gachon, B. Beaufrere, and C. Obled E980

Fasting and decreased B cell sensitivity: important role for fatty acid-induced inhibition of PDH activity
Y.-P. Zhou, D. A. Priestman, P. J. Randle, and V. E. Grill E988

Rapid enhancement of acyl-CoA synthetase, LPL, and GLUT-4 mRNAs in adipose tissue of VMH rats
I. Shimomura, M. Takahashi, K. Tokunaga, Y. Keno, T. Nakamura, S. Yamashita, K. Takemura, T. Yamamoto, T. Funahashi, and Y. Matsuzawa E995

Effect of aldosterone on renal potassium conservation in the rat
D. B. Ornt, K. J. Radke, and J. D. Scandling E1003

Exercise increases fat oxidation at rest unrelated to changes in energy balance or lipolysis
J. Calles-Escandón, M. I. Goran, M. O'Connell, K. S. Nair, and E. Danforth, Jr. E1009

Effects of glucagon-like peptide-I on glucose turnover in rats
G. Van Dijk, S. Lindskog, J. J. Holst, A. B. Steffens, and B. Ahrén E1015

Sensitive methods to study human apolipoprotein B metabolism using stable isotope-labeled amino acids
T. Demant, C. J. Packard, H. Demmelmair, P. Stewart, A. Bedynek, D. Bedford, D. Seidel, and J. Shepherd E1022

Eliminating metabolic abnormalities of portacaval shunting by restoring normal liver blood flow
P. A. Hawkins, M. R. DeJoseph, and R. A. Hawkins E1037

Effects of somatostatin on pulsatile insulin secretion: selective inhibition of insulin burst mass
N. Pørksen, S. R. Munn, J. L. Steers, J. D. Veldhuis, and P. C. Butler E1043

GHRH activates a nonselective cation current in human GH-secreting adenoma cells
K. Takano, T. Takei, A. Teramoto, and N. Yamashita E1050

LETTERS TO THE EDITOR

Nitric oxide mediates skeletal glucose transport
T. W. Balon and J. L. Nadler; A. D. Baron E1058
